

# UNIFIED COMMUNICATION

Level365 offers complete, customized, and scalable Unified Communications as a Service (UCaaS) solutions with enterprise voice. It also includes unified messaging, presence, audio, video, and conferencing, call and faxing.

## Integrate communications across channels.

UCaaS: the future of business communications

### Mobile Applications

Work where and how you want with convenient smartphone features that put your business communications in your hand. For iOS and Android.

### Web Portal

The Level365 Web Portal provides users with access to all of the features of our UC platform via an easy to use website that is specific to the user.

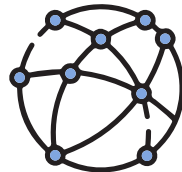

### SMS / Chat

Chat with your teammates and text clients from your business phone number and maintain your professional identity with business contacts as you communicate.

### Cloud Faxing

Our cloud faxing solution allows you to send and receive faxes from multiple sources while eliminating the need for dedicated and expensive phone lines.

### Collaboration

Coming soon. Video Conferencing, File Sharing and Screen Sharing available through our Web Portal. Delivered over WebRTC.

### Analytics

Gain insight into call performance with a wide range of detailed reporting available via the Web Portal. Get better understanding into user performance.

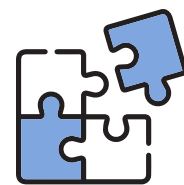

### Cloud Technology

UCaaS provides lower TCO and supported by providing services using cloud resources. All features, functionality and upgrades included with subscription.

### Call Center

Next generation contact center features enable agents to be more effective on the phone. A feature-rich solution for complete customer engagement.

### Integrations

Connect with more than 25 CRM, ERP and Help Desk application options. Gain access to a full sales and automation platform for your team.

# WHY PARTNER WITH US

Level365's Partner Program lets you choose which level best fits your business model. We offer three levels of partner involvement (1) Referral Program, (2) Reseller Program, and (3) Wholesale and Private Label.

Find the partner level that is right for you:

1

## Referral Partner

Ideal for IT consultants and businesses providing technology and integration services but do not want to commit to a revenue goal. Level365 assists in closing sales and provides one-time referral commissions depending on total new order recurring monthly revenue.

2

## Reseller Partner

Ideal for Value-Added Resellers, MSP's, Telecom Agents, and Associations that serve a large growing client base and actively market their services. Reseller Partners receive comprehensive training and have the ability to close Level365 sales independently. Reseller Partners are bound by contractual obligation to achieve a monthly revenue sales commitment, and are paid a residual commission of the installed monthly revenue.

3

## Wholesale and Private Label

As a Level365 wholesale partner, you can provide your customers with a full UCaaS platform of services under your own brand. Options include private-label billing, full custom branding on all end-user touch points and iOS and Android custom applications.

## Top 5 Benefits of Partnering with Level365

- 1. Direct support for your sales efforts:**  
Our partner sales team becomes an extension of your business with hands-on assistance educating customers and closing sales.
- 2. Dedicated installation support:**  
A single point of contract provisions your orders quickly and keeps you informed.
- 3. Legendary technical support:**  
You and your clients enjoy 24/7 access to tools and experienced technicians that owe every issue start to finish - no tiers, no scripts, no hassle.
- 4. Competitive commissions:**  
Generous one-time referral payments at residual payments for solution partners who make value commitments.
- 5. Sales and product resources:**  
Online webinars, regular newsletters, and an extensive partner portal.

# THE LEVEL365 ADVANTAGE

Level365 delivers a full Unified Communications as a Service (UCaaS) suit to create an open end-to-end solution for your clients. The Level365 US platform integrates communications across all channels.

## About Level365

Level365 is a provider of hosted Unified Communication as a Service (UCaaS) and provides services to small to medium enterprises with between 5-200 employees. The company was established in 2009 as a cloud service provider offering voice, internet access, and hosted web applications. In 2015, we upgraded our voice platform to a full unified communications platform which enabled us to deliver full UC services to business hosted within the cloud.

Our management team has over 40 years of combined experience in enterprise, IT, carrier voice services, and commercial broadband services. We bring this experience to the table everyday for our clients benefit. We look forward to helping you in all areas of your business voice and unified communications needs.

## Why Level365

Our team is dedicated to taking the hassle out of managing your business communications. Our solutions offer businesses a managed customized phone system in the cloud with minimal start-up costs and reduced telephone bills. Our cloud-based platform means we perform the maintenance and upkeep of the system instead of you.

## Experience the Level365 difference:
